

## FBidrive™ – “where perception becomes reality”

### What does FBidrive™ stand for:

- Fingerprint: something you cannot lose, forget, or change.
- Biometric: Reading live electronic activity of your finger to create points of contact
- Identification: Proof that you are who you say you are because you are biometrically unique
- Drive: Fingerprint controlled Secure USB flash drive up to 4GB

***The FBI Drive is the ultimate Data Defense Device! With it you have a secure portable desktop. With exclusive -459 software, the FBidrive™ allows you to access your data and email securely anytime, anywhere all in a device that fits in the palm of your hand.***

- **Stores Bookmarks** – take your bookmarks to any computer with you anywhere in the world. Simply plug into a host PC and access your sites
- **Username and Passwords** – converts all your username and passwords to your biometric fingerprint. When you need to access a site that requires log in, authenticate with your fingerprint. The -459 software utilizes ‘push’ technology to automatically put in your username and password with no keystrokes. For corporations, there is no need for employees to have a password, tie their access to their fingerprint!
- **Address Book** – With the FBidrive™ you can securely take all your personal and business contacts with you giving you the ability to keep contact information and client information safe and secure with only you having the access.
- **File Storage** – copy or move files to the FBidrive™ for secure access only for all your files, images, music, presentations, spread sheets.
- **Send & Receive Email** – directly from the FBidrive™. You must authenticate to send or receive email.
- **Multiple email accounts** – safely protected by your biometric identity.

**Encryption Safe Box** – Ultimate security . . . Biometric authentication required to access the safe box in the FBidrive where **every** file can be 128bit Triple DES encrypted.

**Properties** – These are your preferences for Backup, Restore, and Options. With the FBidrive™ you have the ability to backup all your data on the FBidrive™ to your desktop in an encrypted file. Options for you to choose what areas you require biometric access to be used. Choose which Properties you want to have erased with our exclusive -459 software, which will erase all of the temporary files, cookies, histories and URL’s on the PC leaving **no trace on the internet**.

**-459 Software** – stands for Absolute Zero trace. All of your activity on the host computer can be erased. No temp files, no attachments, no internet trace, no trace of emails. Nothing is left behind.
